

Immunization Information System Disclosure Statement

Attention Patients:

Nevada has a computer system that health care providers use to help keep track of their patient's immunizations (shots). This system is called Nevada WebIZ. Health care providers use this computer system to record shots given to patients and access information about their patients' shots, including shots given at other health care provider offices. This system makes it simple to keep track of a patient's shots even if the patient visits more than one physician. It also makes it easier for health care providers to give the right shots at the right time and to remind their patients when shots are due.

The information in Nevada WebIZ is CONFIDENTIAL. Only authorized users may view it. Authorized users include local or state health departments, health care providers, schools, childcare facilities, WIC Programs, and health care plans. The information in Nevada WebIZ can be used to see if shots are up to date, to give shots at the appropriate time, and to bill insurance companies. The information may not be used for any other reason.

Nevada WebIZ Benefits

- Confidential online database that stores immunization records
- Keeps track of immunizations in one location
- Offers official Nevada immunization record
- Reduces the chance of over-vaccination.

The following information may be reported to the system:

- Patient's Name
- Gender
- Address and county of residence
- Full name of mother (including maiden)
- Immunization provided (including manufacturer and lot number)
- The date on which the immunization was provided.
- Age
- Race/ethnicity
- State and country of birth

You have the right to:

- Refuse to have us include in Nevada WebIZ this information now or at any time.
- Look at your, or your child's*, record, and have corrections made.

Participation: An individual may decide at any time to not participate in Nevada WebIZ. Anyone who initially decides to opt-out may choose to participate at a later time. No one is penalized for choosing to not participate in Nevada WebIZ. ***If you do not want your child's information entered into Nevada WebIZ, please ask your health care provider for a form.*****

*Children are defined as 0 (zero) through 18 years of age (up to their 19th birthday).

**Adults must sign this form giving their consent before their information may be entered.
